To
The Chairman
The Institute of Chartered Accountants of India (ICAI)
Hyderabad Branch

Dear Sir,

Sub: Request for Nomination of Eligible Industrial Trainees for One-Year Industrial Training at Andhra Pradesh Industrial Infrastructure Corporation Limited (APIIC) – Reg.

Greetings from Andhra Pradesh Industrial Infrastructure Corporation Limited (APIIC).

Andhra Pradesh Industrial Infrastructure Corporation Limited (APIIC), a wholly Government-owned enterprise of the Government of Andhra Pradesh, is the State's premier agency for industrial infrastructure development and investment promotion. For over five decades, APIIC has been instrumental in developing industrial parks, Special Economic Zones (SEZs), industrial corridors, logistics parks, electronic manufacturing clusters, food processing parks, sector-specific industrial clusters and integrated townships, thereby driving industrial growth, investment, employment generation and economic development across Andhra Pradesh.

APIIC is presently playing a pivotal role in implementing several flagship industrial infrastructure initiatives under the vision of "Swarna Andhra @ 2047." In partnership with the Government of India and other national institutions, the Corporation is developing industrial corridors and integrated manufacturing nodes while facilitating investments across sectors such as electronics, pharmaceuticals, food processing, textiles, engineering, renewable energy, logistics and advanced manufacturing. These initiatives involve financial structuring, project appraisal, budgeting, treasury management, infrastructure financing, commercial negotiations, statutory compliance and technology-enabled governance, providing an excellent platform for young finance professionals to gain practical exposure beyond conventional accounting assignments.

With a view to nurturing future finance professionals, APIIC proposes to engage eligible Chartered Accountancy students for **Industrial Training** for a period of **one year**. The programme is designed to provide hands-on exposure to public sector finance, infrastructure project accounting, financial modelling, statutory and regulatory compliances, investment analysis, budgeting, treasury operations, internal controls, contract administration and digital finance practices, thereby complementing the professional curriculum with practical experience in one of the State's largest infrastructure development organisations.

In this regard, we request your esteemed Branch to kindly identify, recommend and refer eligible students interested in pursuing Industrial Training with APIIC. Selection shall be made through an interview process based on the candidates' technical competence, analytical aptitude and overall suitability.

Corporate Office: Floor No.9, 10 & 11, APIIC Towers, IT Park, Mangalagiri, Guntur Dist.-522503, Andhra Pradesh

The broad particulars of the Industrial Training Programme are as follows:

- **Number of Trainees:** 8 to 10 candidates (*APIIC reserves the right to vary the number of selections depending upon the aptitude and competence of the candidates.*)
- **Monthly Stipend:** ₹10,000 to ₹12,000
- **Duration:** One (1) year

The Corporation is looking for candidates possessing the following competencies:

- Strong conceptual understanding of Accounting, Financial Reporting, Cost & Management Accounting, Taxation, Corporate Laws and Financial Management.
- Excellent analytical and research capabilities with the ability to independently study and evaluate financial, commercial and regulatory matters.
- Proficiency in Microsoft Excel, financial modelling and data analysis, coupled with an aptitude to leverage Artificial Intelligence (AI)-enabled tools for enhancing productivity, research and decision support.
- Strong drafting, communication and presentation skills.
- High standards of integrity, professionalism, curiosity and willingness to learn.

The selected trainees will have the opportunity to work closely with senior management and experienced professionals on assignments relating to infrastructure financing, project financial analysis, budgeting, treasury management, accounting, audit, regulatory compliance, policy research and strategic decision-making. Exposure to live Government infrastructure projects, interactions with financial institutions, consultants, statutory authorities and multidisciplinary project teams will provide a unique learning experience that is seldom available through conventional industrial training.

We firmly believe that this initiative will foster a mutually beneficial partnership between APIIC and your esteemed Institution by equipping aspiring finance professionals with practical exposure to large-scale infrastructure development while enabling the Corporation to benefit from the knowledge, analytical capabilities and enthusiasm of young professionals.

We shall be grateful if your Branch could circulate this opportunity among eligible students, facilitate nominations and encourage deserving candidates to participate in the selection process. We would also be pleased to interact with your students through career guidance sessions, campus interactions or orientation programmes organised by your Branch.

We look forward to your valuable support and to building a long-term association with your esteemed Institution in nurturing competent finance professionals for the nation.

Thanking you.

Yours faithfully,

Executive Director

Andhra Pradesh Industrial Infrastructure Corporation Limited (APIIC)
